Okonjima Nature Reserve

Midway between the spectacular Etosha National Park and the capital city of Windhoek, lies the well-known Okonjima Nature Reserve. The 22 000 hectare nature reserve is home to AfriCAT, a carnivore sanctuary, which gives the captive cats a second chance to be released back into the wild and become completely independent hunters in a protected area right in the middle of commercial cattle farmland. Visitors can enjoy a stay at a variety of excellent accommodation options including everything from luxury villas to secluded camping. Don't miss the opportunity to enjoy thrilling cat-tracking guided safaris, leopard-spotting, off-road night drives and learn about local San culture along the Bushmen trail.

Camping in Okonjima Nature Reserve epitomises the African safari experience. Your small group or family can become one with nature as they visit the Carnivore Care Centre, track leopards, learn about the indigenous people during the Bushman trail, and grow attuned to the sights, sounds and ways of Namibia's grassy plains. The partially-equipped, private campsites share a swimming pool at the foot of the Ombokoro Mountains and are located in the 2000ha non-rehabilitation area. All sites boast spectacular sundowner viewpoints.

Okonjima Nature Reserve is recognized as one of the premier places to stay to witness carnivores and other endangered species like the rhino, pangolin and brown hyaena in the wild and to be educated about conservation. The AfriCat Foundation was born in the early 1990's, a Namibia registered non-profit organization which started out primarily as a welfare organization, and has since become focused on

research projects which are essential in accomplishing its mission of the long term conservation of Namibia's wildlife.
