Accessing the park via the Anderson Gate, we embark on the first of our game drives to some nearby waterholes. We are searching for zebra, giraffe, elephant and rhino, but most especially we are looking for predators. Our first night is spent inside Etosha Park in twin rooms. We arrive just before sunset at Halali Camp where we take advantage of the floodlit waterhole, where guests can watch wildlife come to drink during the evening. There's even the chance of spotting some of the more elusive nocturnal creatures.

Etosha National Park

Situated in northwestern Namibia, the Etosha National Park offers a premier game viewing experience. The park's diverse vegetation ranges from dense bush to open plains attracting a variety of wildlife. Located in the heart of the park is the Etosha Pan - a shallow depression that covers an area of 5000 square kilometres. Dry and shimmering for most of the year, the pans fill up with water after seasonal rains, making it the perfect habitat for wildlife. In the dry season, the wildlife is attracted to the perennial springs and waterholes that makes for excellent game viewing. Visitors can look forward to world-class game viewing including a variety of large mammals such as lion, elephant, leopard, rhino, zebra, giraffe, a diversity of birdlife such as flamingoes and pelicans.

Overnight: Halali Resort

Strategically located halfway between Okaukuejo and Namutoni, Halali is situated at the base of a dolomite hill, amongst shady Mopane trees. A flood-lit waterhole viewed from an elevated vantage point provides exceptional wildlife viewing throughout the day and into the night. Accommodation is provided in family chalets, two and four bed bush chalets and double rooms, all converted with large sliding doors to the outside to allow visitors to experience and benefit from the peace and tranquillity of the natural surroundings.
